Educational Chatbot
06/2025 - 06/2025
Building an educational chatbot that helps students solve math problems step-by-step and improve their grammar skills through interactive exercises.

KEY ACHIEVEMENTS

Enhanced Data Visualization	Efficient Code Optimization
Enhanced data visualization accuracy by 30% using Tableau during internship projects	Reduced project completion time by 25% through optimizing Python code techniques
Boosted Salesforce Engagement	Achieved 100% Success Rate in IoT Projects
Increased user engagement by 40% on Salesforce platform during virtual internship	Achieved 100% success rate in IoT certification projects, demonstrating technical proficiency

SKILLS

Cybersecurity	GitHub	HTML	IOT	Excel	Microsoft Office	Microsoft Word	Pandas	Python
Salesforce	SQL	Tableau	Powerbi	JavaScript	CSS	NumPy	Power Point	

STRENGTHS

Adaptability to change	Commitment to growth
Highly adaptive to learning new technologies efficiently.	Strong dedication to achieving both personal and organizational success.
Team collaboration	Problem-solving skills
Proven experience in collaborative team projects and internships.	Exceptional ability to solve problems under pressure.
